

## The 3<sup>rd</sup> African Conference on Research in Chemistry Education

L'UNIVERSITE FERHAT ABBAS SETIF1  
(ALGERIA)

Ferhat ABBAS University SETIF1 is pleased and honoured to host the 3<sup>rd</sup> African Conference on Research in Chemistry Education, ACRICE 2017, during the period of **8-11 October 2017**.

The conference (under the scientific auspices of the Algerian Chemical Society, Société Algérienne de Chimie, SAC, in association with FASC, the Federation of African Societies of Chemistry) and IUPAC, the International Union of Pure and Applied Chemistry, wishes to emphasise the roles of chemistry education for development and for sustainable development in the Maghreb region and in Africa, by offering an ideal opportunity for sharing experiences among chemistry educators across the African continent and with specialists from other continents. All areas and levels of chemistry education will be considered, and the known major challenges will be given specific attention. Explorations of novel approaches to chemistry teaching and latest research findings on chemistry education as well as novel trans-continental collaborations will be discussed.

### PAPER SUBMISSION

Researchers and students are invited to submit papers up to 10 pages. Submissions should be written in English and formatted according to the conference [template](#) and uploaded through the conference <http://www.univ-setif.dz/OCS/FT/ACRICE> in word or Pdf Format.
